

EnergiePunkt

Ing. Büro für Energieeffizienz

Stefan Wluka CEO

„the most important kilowatt hour
is the unused !“

EnergiePunkt

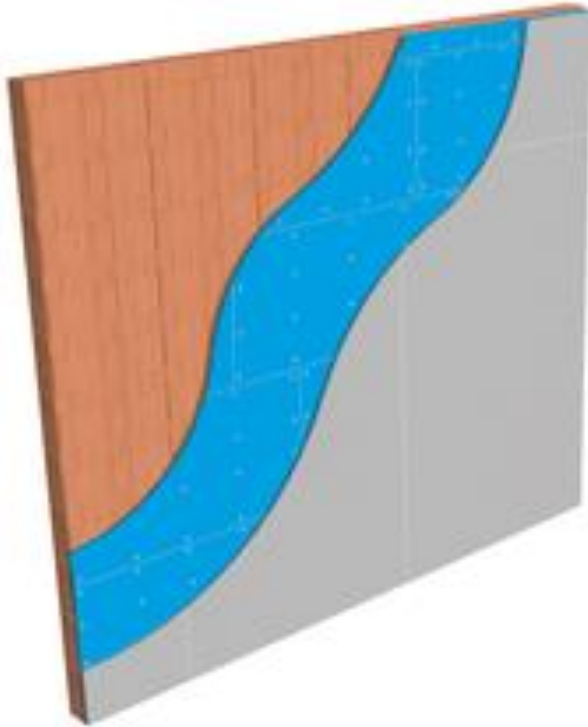

- This small spin-off company is founded in Feb. 2014
- 5 member of staff have realized more than 340 energy consulting projects in the last 6 years
- More than 4 million € saved energy expenses

Modern Windows

- noise insulation
- insulation for heat and cold
- comfort
- Design

acoustic insulation

- retroactive acoustic insulation + 12db
- only 28mm wall mounting
- silent fitting by adhesive technology
- heat and cold insulation
- comfort rise

Sun electricity

- self made electricity
- sun shadow
- nearly invisible
- electricity by the sun

Solar heat

- high efficient collectors
- heat for cooling
- heat for pool heating

Combined heat and power

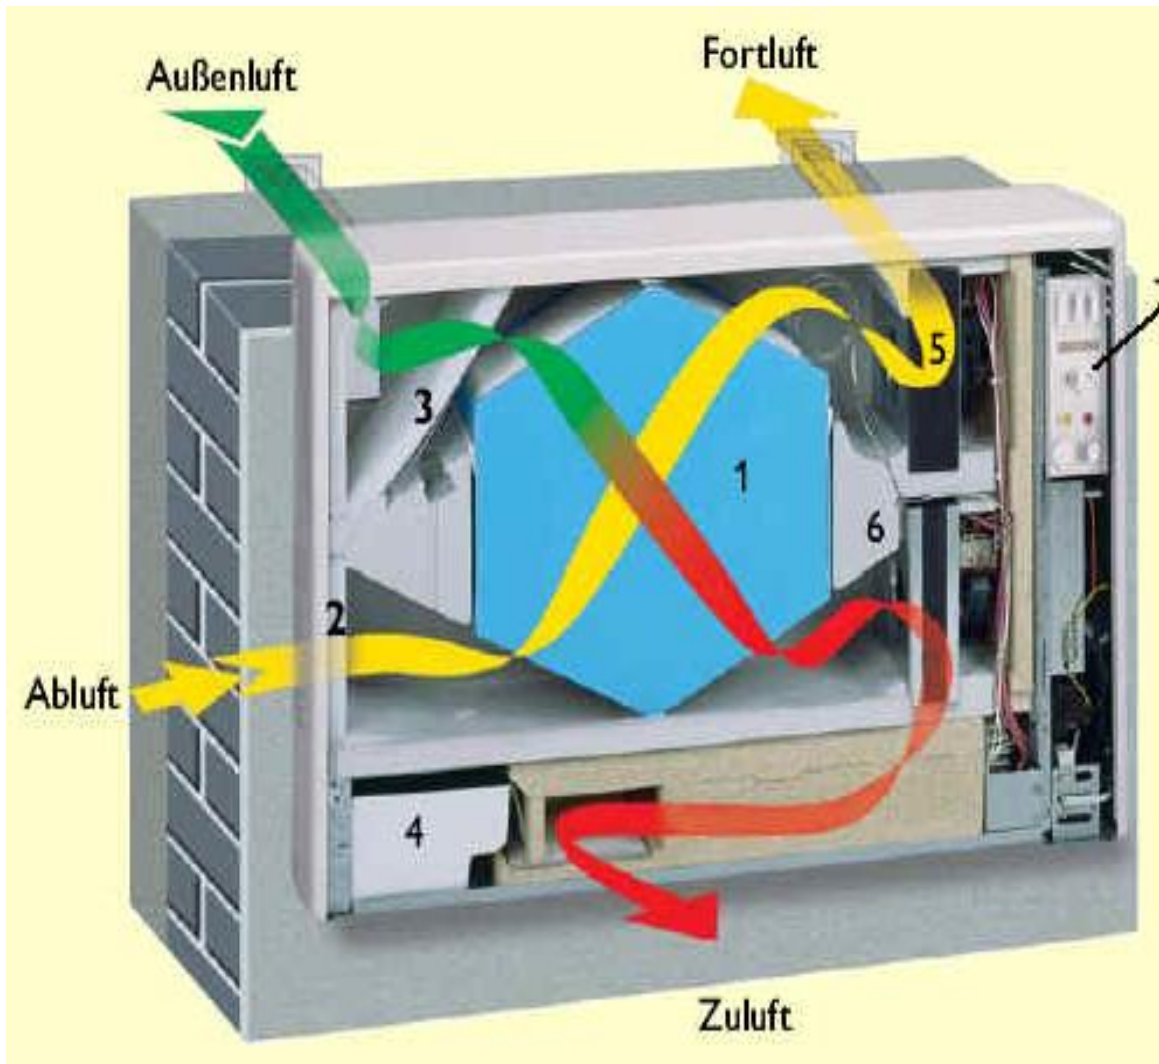

- hot water and electricity
- cooling and electricity
- without wind and sun
- high efficient

Absorption Chiller

- cooling by heat
- sun power cooling

heat and cold recovery

- less loss of energy
- keep heat and cool in the room

LED lighting

- save up to 85% electricity
- less maintenance
- different light colors
- more comfort
